Dear John,

Please accept this letter as a note of great thanks and enormous appreciation for the fantastic job which you and your entire staff performed during the construction of our new house located on the South Fork of the Saint Lucie River in Stuart, Florida.

Our three story house is truly a "dream house".

We feel so secure with your construction that we're begging for our first hurricane in our new house!

You are very much welcome to list us as a reference for your solid workmanship.

You are also more than welcome to show either the exterior or interior of our house to any prospective client or to anyone else you might care to do so.

Thanks again for a tremendous and professional job well-done.

Sincerely, 

Signature Deleted

GERALD LEFEBVRE
